## FAQs

### Q1: Link shows expired after clicking?

Verification may have exceeded 5 minutes, or you just initiated a new transaction. Please use the latest SMS link.

### Q2: Multiple transactions, which verification link to click?

Always click the "most recent" SMS link. To ensure transaction security, old verification requests automatically expire when new transactions trigger verification.

### Q3: Accidentally clicked "Reject"?

The transaction will be blocked. Please initiate a new transaction and click "Approve" during verification.

### Q4: Approve button not responding?

Please check your network connection. If still unresponsive, try logging in to the link again.

### Security Reminder

To ensure the security of your funds, please do not click on any suspicious links. The platform has fulfilled its notification obligations; users must remain highly vigilant and identify counterfeit links. The platform will be unable to provide recovery or compensation for asset risks resulting from the disregard of this notice. If you have doubts about a link, do not click it, you may log in directly to the official website for verification.
